Junior Front-End Developer

Front-End Developer with 1.3+ years of hands-on experience building responsive web applications using React, JavaScript, and Tailwind CSS. Passionate about crafting lead-generation-focused websites and optimizing user experiences through REST API integrations, cross-browser compatibility, and mobile-first design. Currently expanding expertise in Redux, TypeScript, React Router and NextJs

WORK EXPERIENCE

Self-Taught Front-End Developer

01/2023 – Present

- Developed 3+ web applications using React and modern CSS frameworks, focusing on user engagement.
- Implemented responsive web design techniques across multiple projects, resulting in improved accessibility and user satisfaction without compromising performance.

Carnival Cruise Line Manager

06/2020 – 06/2023

- Led a team of 25+ staff, improving operational efficiency by 20% through process automation tools.
- Trained junior staff on customer service protocols, resulting in a 95% guest retention rate.

PROJECTS

Portfolio Website

Built a fully responsive portfolio with dynamic animations and SEO optimization. Achieved 100% Lighthouse performance score through image compression and code splitting.

Barbershop Website

Customized a Barbershop website with variant selectors, cart functionality, and mock booking. Implemented using React JS and Tailwind.

SKILLS
