

OLGA MINAIEVA

FRONTEND ENGINEER • REACT • TYPESCRIPT • NEXT.JS

Toronto, Ontario, Canada | minaeva9@gmail.com | [GitHub](#) | [Portfolio](#)

PROFESSIONAL PROFILE

Toronto-based frontend engineer building responsive, accessible web applications with React, TypeScript, and Next.js. Experience includes leading a three-person team, creating reusable interfaces, and integrating REST APIs and authentication. Brings collaborative delivery, code review, customer-facing experience in Ontario's casino sector, and practical use of AI-assisted development tools.

TECHNICAL SKILLS

Frontend: React, TypeScript, JavaScript (ES6+), Next.js App Router, HTML5, CSS3, Tailwind CSS

React ecosystem: React Hooks, Context API, TanStack Query, React Router; coursework in Redux Toolkit and Zustand

APIs & data: REST APIs, Fetch API, authentication, Supabase, PostgreSQL, Prisma

Backend exposure: Node.js, NestJS, Fastify

Tools & workflow: Git, GitHub, pull requests, code reviews, Vite, ESLint, Prettier, Docker, Postman, Codex, ChatGPT

Engineering practices: Responsive design, accessibility, reusable components, Vitest, React Testing Library, GitHub Actions, Agile teamwork

SELECTED PROJECTS

OpenAPI Playground — Team Lead | Three-person team

Next.js • React • TypeScript • Supabase • OpenAPI | [Live](#) • [GitHub](#)

- Led sprint planning, frontend architecture, and pull-request reviews across a three-person distributed team.
- Implemented authentication, Supabase data flows, and REST API execution through a Next.js server proxy; delivered schema validation, endpoint previews, and saved history.

Coffee House — RS School Frontend Project

HTML • CSS • JavaScript | [Live](#) • [GitHub](#)

- Built a responsive two-page cafe website with light and dark themes, a coffee carousel, and animated mobile navigation.
- Rendered menu cards from JSON; added category filters, product modals, configurable sizes and extras, and instant price updates.

Frontend Engineer Portfolio

React • Vite • Tailwind CSS • Vitest | [Live](#) • [GitHub](#)

- Built reusable React components, responsive layouts, keyboard-accessible navigation, and structured project case studies.
- Optimized images and social metadata; added 10 passing component tests and automated lint, formatting, test, and build checks.

EDUCATION & PROFESSIONAL DEVELOPMENT

React Development Course | The Rolling Scopes School

Online • Completed July 2026

- Project-based study of React, TypeScript, hooks, routing, state management, testing, Next.js App Router, and a collaborative final project.

JavaScript / Front-end Course | The Rolling Scopes School

Online • 2025

- Practical training in Git, HTML, CSS, JavaScript, security, testing, Agile, networking, and web-development tooling.
